HOW TO USE THIS INDEX

SCOPE

The Index focuses primarily on local area news. State news is generally also included. Except for items of unusual significance, sports, traffic accidents, minor crimes and court proceedings are omitted. Road news are only included if the news is by-passing there or about Indiana. Station pictures are included. "Action Line" questions and local news announcements (such as the location of antique fairs) are excluded.

In the Subject Index governmental agencies are listed under the name of the unit in which they are attached. For instance, all Fort Wayne departments are listed under "Fort Wayne". County offices are listed alphabetically.

County units are listed under the heading "Fort Wayne County".

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

The Index does not include names of individuals who are listed in the Index.

FORMAT

The format remains basically the same as in Index 74. There are four main sections: the subject index, the name index, the directory index and the directory of public officials. The subject index and the directory of public officials are listed in alphabetical order. The name index is listed in alphabetical order. The directory index is listed in alphabetical order.

HOW TO USE THIS INDEX

SCOPE

The index focuses primarily on local area news. State news is generally also included. Except for items of unusual significance, sports, traffic accidents, minor crimes and court proceedings are omitted. Book reviews are only included if the books are by Indiana authors or about Indiana. Motion picture reviews are included. 'Action Line' queries and social club announcements (with the exception of officer lists) are excluded.

In the Subject Index governmental agencies are listed under the name of the unit to which they are attached. For instance, all Fort Wayne departments are listed under "Fort Wayne"; Allen County offices are listed alphabetically under "Allen County"; combined city-county units are found under the heading "Fort Wayne-Allen County."

The Name Index is arranged alphabetically according to personal names as they are given in the newspaper. We have also provided the occupation or office held by the individual if such information was available in the news article.

The Obituaries Index include the date of death as reported as well as reference to the obituary location in the newspaper.

We again include the Directory of Public Officials because news articles often refer to board or commission actions without naming the people who comprise the board.

We have included the terms of the public officials, and the party affiliation if available.

We have also listed the appointing "agency" if more than one is involved.

FORMAT

The format remains basically the same as in Index '78. There are four major sections: the subject index, the name index, the obituaries index and the directory of public officials including boards and commissions. Under any one subject or name, entries are listed chronologically. Each entry provides the following information:

date
page and section
title of article

SPECIAL FEATURES

Any photos, illustrations, maps or charts which accompany an article are indicated. Items that are editorials, editorial cartoons, letters to the editor or essays are also noted.

ABBREVIATIONS

A list of abbreviations follows this introduction.

ACKNOWLEDGEMENTS

We wish to thank The Journal-Gazette for encouraging and promoting of our indexing project. Our particular gratitude goes to Richard G. Inskeep, Publisher; Roger L. Mosher, Associate Editor; Margaret Bliss, typist and Rosalina Stier, librarian. In addition, we would like to thank Bonnie Byanskie, Reference Assistant at IU-Purdue, for assisting us with the obituaries indexing.
